

I did have you and Angie sign a lead disclosure form stating there is potential for lead since the duplex is very old.

We will be out of town this week, returning March 16th if you want to meet after we are back.

That works for me. I know Angela signed on one of the disclosure agreements because I have a copy of it, as for me, I don't specifically remember the details of the disclosure agreement and the copy that I have here doesn't have my signature on it. Can I get copies of

Sure, I'll check. You may not have, since you were added initially to the lease in the beginning.

Angie should have copies of everything. Let me know and I can make a copy of the lead base one. Thanks

Copies would be good.  
Thank you.
